13. How to access the registration now?

## Do the students take all the subjects?

That's how it is. Daily they will learn the exclusive Complete Program of Shakespeare School that has 25 subjects. These subjects are not taught in traditional schools and are so necessary in future adult life. These subjects sown in childhood and adolescence will create individuals full of self-confidence and multiple possibilities. They do it through the internet on our private page that can be accessed from any country and students can take the daily class at any time of the day depending on their other activities.

## How much time a day do they go to school?

From Monday to Friday, we use one hour a day where students receive two classes of 30 minutes each, of two different subjects and two different teachers every day.

## What is the purpose of Shakespeare School?

The goal is to offer students a wide range of choices, knowledge, practices, and skills to be successful in all areas of life. We are interested in them learning to know and harmonize their emotions, unfold the creative potential of their brain, amplify their knowledge, develop team spirit, grow their leadership skills, know how their physical body works, activate their ability to feel abundance and learn to manage and invest your money including the new trends in cryptocurrencies, enjoy different branches of art such as painting, music, literature and manual work, know and activate your DNA, become familiar with the language of mathematics from a metaphysical angle, as well as with letters and writing to amplify their self-knowledge, add disciplines such as meditation and yoga in daily life and, with all these values, grow as human beings who develop their full potential and talents.

### **How are student projects handled?**

We observe their ideas and projects and through the originality and focus of their creative expressions, we evaluate the projects that arise and we look for alternatives to express them.

### **How are students graded?**

Our international team of 18 teachers assesses the attention and dedication of the students and is scored through the motivation and analysis of their work, always considering constantly raising self-esteem and confidence in their own potential. Students work as a team but we also value their unique individuality and genius.

### **How to see the daily work of the students?**

Parents can view all classes and also observe their children's progress and work.

### **Will there be live classes?**

Yes. Often there are live classes when a special message is announced and also to announce awards and recognitions.

The daily classes are recorded with special editions and explanatory graphics depending on the subjects.

### **What activities do students do at Shakespeare School?**

The idea is that they really want to do the classes since all the topics are didactic, fun, deep and innovative. In addition to receiving classes daily, students meet other students from other countries and are enriched in cultures and friendship.

### **Can we parents have contact with the School team?**

Of course you do, all the time through WhatsApp chats we report the news of Shakespeare School and the progress of the students.

### **Do students earn money? How does charging for studying work?**

Our tutors evaluate that students see the classes and do the practical work that will have a cumulative score in money and in merits in awards and recognitions from work diplomas to ipads, books, gifts, shoes, money and surprise items that they can use for their development.

### **What subjects are they going to learn?**

The list of subjects is unique and innovative in the world, we are the first school for young people that teaches self-knowledge, meditation, money management, leadership, music, Spanish-English-German language, mathematics, yoga, dance, emotional intelligence, sexual intelligence, knowledge of the human body, neuroscience, and study of the brain, personal growth, music, painting, literature, theater, history, breathing techniques, creative use of imagination, energy management, knowledge and activation of DNA; cellular nutrition and conscious eating, ecology and environment, vocation search and development, entrepreneurial philosophy and coaching.

### **How does the annual tuition fee work?**

The payment is made only once and is valid for the 9 months that the school year lasts. Automatically when paying the tuition the student enters and is received by our tutors. There are no other additional payments during the year.

### **How to access the registration now?**

Fill out the questionnaire with all the student's information and make the payment method. If you have someone who recommended our school, remember to put their promo code with a 10% discount. Also check the extra discount for enrolling two or more young people in your family.

You will immediately receive a confirmation to your email and then they will be ready to start the welcome process! It is a great seed for the future of the new generations! We are waiting for you at Shakespeare School!
